R@D Project in Axiata Digital Labs

- I assumed the role of a developer, specializing in React to deliver key project tasks. This experience provided a comprehensive understanding of RD processes, honed technical proficiency, and showcased my ability to develop impactful solutions in a dynamic and collaborative environment
- Technologies: **JavaScript - React**

SOFT SKILLS

- Leadership Skills
- Strong team Player
- Good Communication Skills
- Time Management

REFEREES

Amila Hettiarachchi

Position: Senior Principal Architect
Company: Axiata Digital Labs
Email: Amila.Hettiarachchi@axiatadigitallabs.com
Phone: +94 77 733 7369

Gayan Kalhara Wickramasinghe

Position: Senior Software Engineer
Company: Axiata Digital Labs
Email: gayanwickramasinghe@yahoo.com
Phone: 0773333848

TECHNICAL SKILLS

- Java, spring boot
- JavaScript
- React
- React Native
- Firebase
- Git Lab usage and SonarQube usage

PROJECTS

Supreme Visualization

University Second-Year Project
- Actively contributed to seamlessly integrating Python and machine learning for a criminal detection software.
- Focused on algorithm implementation and project success.
- Technologies: **Python, Machine Learning**

Online Penalty Pay

- Developed an online penalty payment system aimed at simplifying fine payments with a user-friendly app,and secure transactions.
- Technologies: **WordPress,React Native,Firebase,React**

EDUCATION

Graduate Studies

Program: BEng (Hons) Software Engineering at Informatics Institute of Technology (IIT)
 Class: **Lower Second Honours**
Duration: 2021 – 2024

Secondary Education

High School: Dharmaraja College, Kandy
G.C.E A/L Examination: 2020 (Mathematics) - 2 "C" s and 1 "S"
G.C.E O/L Examination: 2017
Results: 5 "A" s ,3 "B" s and 1 "C" in G.C.E O/L
